Manufactured and Guaranteed by Greene County Fertilizer Company, Inc.
PO Box 1346 • Greensboro, GA 30642
1-855-606-3378 • greenecountyfert.com

Packaging:
2.5 gal bottle, 5 gal bucket, 250 gal IBC tote

PRODUCT DESCRIPTION:

0-0-2 MicroGreene™ Fertilizer is formulated for soil fertility and plant health. The 0-0-2 MicroGreene™ product will meet the micronutrient needs of the turf, and stimulate roots and the soil activity necessary to significantly deepen the topsoil layer under the lawn, which will have a profound impact on plant health, soil fertility and water holding capacity.

APPLICATION RECOMMENDATIONS:
The 0-0-2 MicroGreene™ Fertilizer is engineered for two purposes:

- Micronutrient product to add to N-Ext N-Charge™, 26-0-0 GreeneCharge™, 18-0-1 GreenePunch™ or other Nitrogenous fertilizers when micronutrient deficiencies are present or soil remediation is required;
- Complete product for turfgrass application during fertilizer ordinance “blackout” periods where local regulations prohibit the application of Nitrogenous and Phosphorous fertilizers.

Consult your Account Representative for application recommendations specific to your growing zone.

Always read and follow label directions.
